Building Permit Appl: A12011001881

Reviewed By: JSY

Owner

Applicant

ADNAN S KHALIL 3304 E MEDICINE PT COTTONWOOD, AZ 86326 PERMIT PUSHERS 1800 S QUAIL RUN RD COTTONWOOD, AZ 86326

- -Issuance of this Development Permit does not supersede or eliminate the need for other applicable Local, State and Federal requirements, such as protective covenants, zoning ordinance provisions, building code requirements, Corps Of Engineers 404 Permits, or Arizona Department of Environmental Quality (ADEQ) 401 Certification.
- -This permit may be revoked if it is determined that the applicant has not complied with applicable requirements.

Development is within the floodplain of Oak Creek

Base Flood Elevation (BFE):

3,246.30

Regulatory Elevation:

3,247.30 -> UNDSES. DE OF SUPPORT FRAME PAIL. This Development Permit is issued with the following conditions:

- 1. The bottom of the structural frame or the lowest point of any attached appliances must be at or above the Regulatory Elevation. (per approved plan)
- 2. Within 10 days after the manufactured home is set, the applicant must have a registered land surveyor or registered professional engineer complete the FEMA Elevation Certificate and submit it to the District, certifying all requirements have been met.
- 3. Non-residential fully enclosed areas below the lowest floor and/or base flood elevation (BFE) which are subject to flooding shall be designed to meet or exceed the following minimum criteria:
 - a. A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided.
 - b. The bottom of all openings shall be no higher than one foot above grade.
 - c. Openings may be equipped with screens, louvers, valves, or other coverings or devices provided that they permit the automatic entry and exit of floodwaters.
- 4. Fill, if used to elevate structures, must meet all of the following standards:
 - a. The top of the fill shall be at no point lower than the Regulatory Elevation; unless another method has been approved by the Flood Control District that will satisfy the regulatory elevation requirement.
 - b. Such fill shall extend at least 15 feet beyond the walls or supporting frame of the structure.
 - c. Fill must be placed and compacted in accordance with the uniform building code.
 - d. Fill shall not interfere with local drainage or tributary flow to the channel of any watercourse.
- 5. If fill is not used to elevate structure, or if the top of compacted fill is less than the regulatory elevation, the manufactured home must be securely anchored to the ground using tie-downs or other method approved by the Flood Control District.
- 6. If applicable, other non-residential structures are to be built in a manner to prevent floatation, collapse, and lateral movement, must be used solely for storage, parking of vehicles, and/or building access, and must comply with #2 above.
 - a. All machinery and equipment which service a building such as furnaces, air conditioners, heat pumps, hot water heaters, washers, dryers, elevator lift equipment, electrical junction and circuit breaker boxes, and food freezers, must be at or above the Regulatory Elevation.
 - b. All interior wall, floor and ceiling materials located below the BFE must remain unfinished and resistant to flood damage.
 - c. All propane tanks located in a FEMA-designated or District-designated special flood hazard area that are not elevated to the regulatory flood elevation shall be anchored per the current FEMA standard.
- 7. If appropriate, the waste disposal system must comply with the requirements of the Environmental Services Unit.
- This development permit will expire and become null and void, if placement of the manufactured home has not commenced within six months (180 days) from the date of issue, or if the building permit has been voided.

I hereby agree to the above stated conditions, and requirements in accordance with the Yavapai County Flood Control District Ordinance 2010-1 Flood Damage Prevention Ordinance. NOTE: The degree of flood protection required by the ordinance is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. Larger floods can and will occur on rare occasions. Flood heights may be increased by manmade or natural causes. This ordinance does not imply that land outside areas of special flood hazards or uses permitted within such areas will be free from flooding or flood damage.
