

**NOTES TO USERS**

This map is for use in administering the National Flood Insurance Program. It does not constitute a warranty of any kind, and it is not intended to be used for purposes other than those intended by the Federal Emergency Management Agency.

To obtain more detailed information in areas where Base Flood Elevations (BFEs) are shown, users should refer to the Flood Profile and Floodway Data and/or Survey of Damaged Properties data released when the Flood Insurance Study (FIS) report that contains this FIS data was published. The FIS data shown on this map is based on the best available flood elevation information. Accordingly, flood elevation data presented in the FIS report should be used in conjunction with the FIS report for purposes of construction and/or floodplain management.

Coastal Base Flood Elevations (CBEs) on this map apply to the portion of the United States that is subject to coastal flooding. CBEs of this FIS should be used in conjunction with the Survey of Damaged Properties data released when the Flood Insurance Study report for that jurisdiction. Elevations shown in the Survey of Damaged Properties data should be used for construction and/or floodplain management purposes when they are higher than the elevations shown on this FIS.

Boundaries of the floodways were compiled at cross sections and interpolated between cross sections. The boundaries were based on hydrologic considerations with regard to the National Flood Insurance Program. Floodway widths and other pertinent boundary data are provided in the Flood Insurance Study report for that jurisdiction.

Certain areas not in Special Flood Hazard Areas may be protected by flood control structures. Refer to Section 2 of the Flood Insurance Study report for information on flood control structures for that jurisdiction.

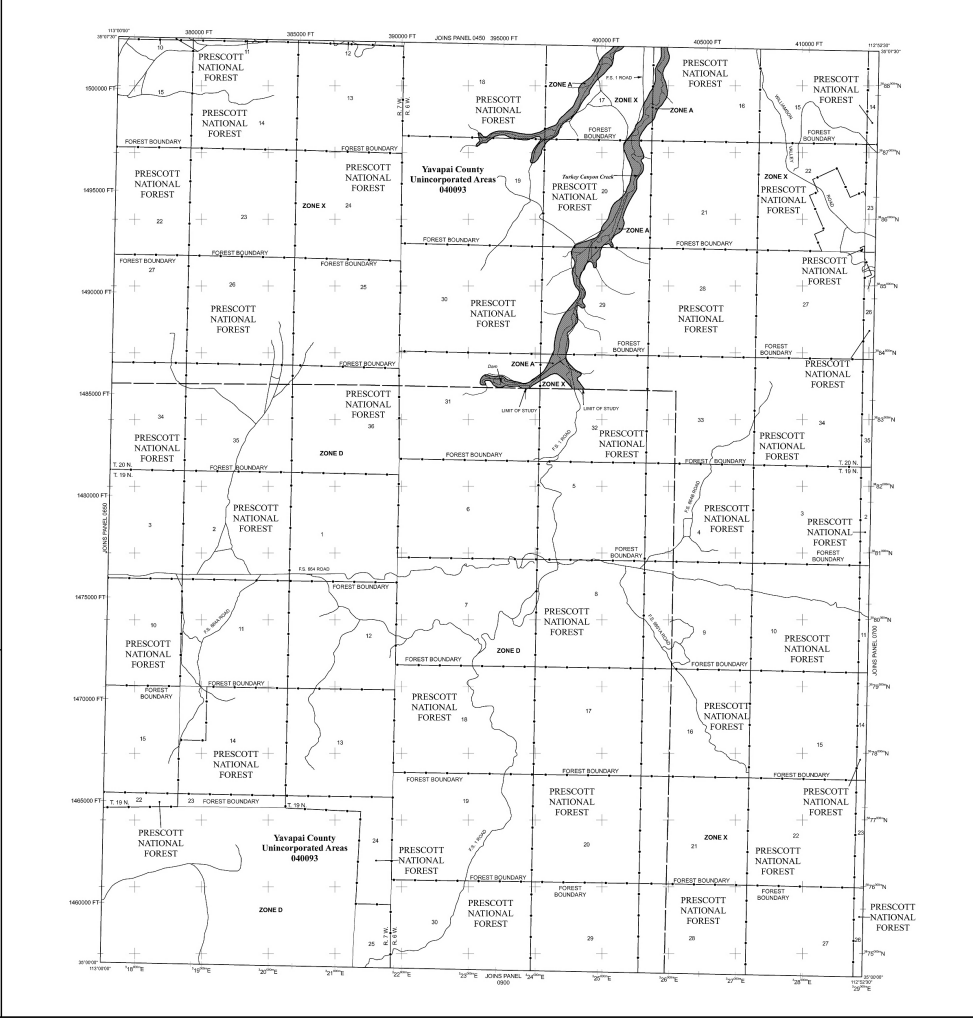

The projection used in the preparation of this map was Universal Transverse Mercator, Zone 12N. The datum used was the North American Vertical Datum of 1988. The horizontal datum used was the North American Datum of 1983. The vertical datum used in the production of this map is the National Vertical Datum of 1988. The datum used in the production of this map is the National Vertical Datum of 1988. These differences do not affect the accuracy of this FIS.

Flood elevations on this map are referenced to the North American Vertical Datum of 1988. These flood elevations may be converted to other vertical datums as follows: To convert to the datum used in the Flood Insurance Study report for that jurisdiction, refer to the Survey of Damaged Properties data released when the Flood Insurance Study report for that jurisdiction. To convert to the datum used in the Flood Insurance Study report for that jurisdiction, refer to the Survey of Damaged Properties data released when the Flood Insurance Study report for that jurisdiction.

**LEGEND**

**SPECIAL FLOOD HAZARD AREAS SUBJECT TO INSURANCE BY THE NATIONAL FLOOD INSURANCE PROGRAM**

**ZONE A**  
Zone A: Areas of special flood hazard subject to insurance by the National Flood Insurance Program. The Zone A flood hazard is defined as the area of special flood hazard that is subject to insurance by the National Flood Insurance Program. The Zone A flood hazard is defined as the area of special flood hazard that is subject to insurance by the National Flood Insurance Program.

**ZONE X**  
Zone X: Areas of special flood hazard subject to insurance by the National Flood Insurance Program. The Zone X flood hazard is defined as the area of special flood hazard that is subject to insurance by the National Flood Insurance Program. The Zone X flood hazard is defined as the area of special flood hazard that is subject to insurance by the National Flood Insurance Program.

**ZONE D**  
Zone D: Areas of special flood hazard subject to insurance by the National Flood Insurance Program. The Zone D flood hazard is defined as the area of special flood hazard that is subject to insurance by the National Flood Insurance Program. The Zone D flood hazard is defined as the area of special flood hazard that is subject to insurance by the National Flood Insurance Program.

**FLOODWAY AREAS IN ZONE A**  
Floodway Areas in Zone A: Areas of special flood hazard subject to insurance by the National Flood Insurance Program. The Floodway Areas in Zone A flood hazard is defined as the area of special flood hazard that is subject to insurance by the National Flood Insurance Program. The Floodway Areas in Zone A flood hazard is defined as the area of special flood hazard that is subject to insurance by the National Flood Insurance Program.

**OTHER FLOOD AREAS**  
Other Flood Areas: Areas of special flood hazard subject to insurance by the National Flood Insurance Program. The Other Flood Areas flood hazard is defined as the area of special flood hazard that is subject to insurance by the National Flood Insurance Program. The Other Flood Areas flood hazard is defined as the area of special flood hazard that is subject to insurance by the National Flood Insurance Program.

**OTHER AREAS**  
Other Areas: Areas of special flood hazard subject to insurance by the National Flood Insurance Program. The Other Areas flood hazard is defined as the area of special flood hazard that is subject to insurance by the National Flood Insurance Program. The Other Areas flood hazard is defined as the area of special flood hazard that is subject to insurance by the National Flood Insurance Program.

**COASTAL BASE FLOOD ELEVATIONS (CBEs)**  
Coastal Base Flood Elevations (CBEs): Areas of special flood hazard subject to insurance by the National Flood Insurance Program. The Coastal Base Flood Elevations (CBEs) flood hazard is defined as the area of special flood hazard that is subject to insurance by the National Flood Insurance Program. The Coastal Base Flood Elevations (CBEs) flood hazard is defined as the area of special flood hazard that is subject to insurance by the National Flood Insurance Program.

**OTHERWISE PROTECTED AREAS (OPAs)**  
Otherwise Protected Areas (OPAs): Areas of special flood hazard subject to insurance by the National Flood Insurance Program. The Otherwise Protected Areas (OPAs) flood hazard is defined as the area of special flood hazard that is subject to insurance by the National Flood Insurance Program. The Otherwise Protected Areas (OPAs) flood hazard is defined as the area of special flood hazard that is subject to insurance by the National Flood Insurance Program.

**FOREST BOUNDARY**  
Forest Boundary: The boundary of the Prescott National Forest.

**YAVAPAI COUNTY UNINCORPORATED AREAS 640093**  
Yavapai County Unincorporated Areas 640093: The boundary of the Yavapai County Unincorporated Areas 640093.

**MAP SCALE 1" = 2000'**  
Map Scale: 1 inch equals 2000 feet.

**MAP NUMBER 64025C0675G**  
Map Number: 64025C0675G.
