

**NOTES TO USERS**

This map is for use in administering the National Flood Insurance Program. It does not constitute a warranty of any kind, including any liability for flood damage or other loss. The user assumes all responsibility for the use of this map for purposes not intended by the Federal Emergency Management Agency.

To obtain more detailed information in areas where **Base Flood Elevations** (BFEs) are shown, users are encouraged to consult the Flood Profile and Floodway Data (FP&FD) report of the Flood Insurance Study (FIS) for the area. The FP&FD report should be used to verify that the BFEs shown on the map represent the actual BFEs. These BFEs are intended for use in determining flood insurance rates. Flood elevation data presented in the FIS report should be used in conjunction with the FP&FD for purposes of construction and/or floodplain management.

**Coastal High Water Elevation** (CHWE) is the high water elevation of the North American Vertical Datum of 1988 (NAVD 88). Users of this FIRM should be aware that coastal flood elevations are also provided in the Survey of Coastal High Water Elevations in the Flood Insurance Study report for the jurisdiction. Elevations shown in the Survey of Coastal High Water Elevations shall be used for construction and/or floodplain management purposes when they are higher than the elevations shown on this FIRM.

Boundaries of the floodways were compiled at cross sections and interpolated between cross sections. The boundaries were based on hydraulic computations with input of measurements of the National Flood Insurance Program. Floodway widths and other pertinent floodway data are provided in the Flood Insurance Study report for the jurisdiction.

Certain areas not in Special Flood Hazard Areas may be protected by flood control structures. Refer to Section 2 "Flood Protection Measures" of the Flood Insurance Study report for information on flood control structures for this jurisdiction.

The projection used in the preparation of this map was Universal Transverse Mercator (UTM) Zone 13. The datum used was the North American Datum of 1988. All elevations are in feet above mean sea level. For information regarding datum conversion, contact the National Geographic Survey of the National Oceanic and Atmospheric Administration at <http://www.ngs.noaa.gov> or contact the National Geographic Survey at 1205 Jefferson Davis Highway, Alexandria, VA 22304.

Flood elevations on this map are referenced to the North American Vertical Datum of 1988. These flood elevations must be converted to structures and ground elevations referenced to the same vertical datum. For information regarding datum conversion, contact the National Geographic Survey of the National Oceanic and Atmospheric Administration at <http://www.ngs.noaa.gov> or contact the National Geographic Survey at 1205 Jefferson Davis Highway, Alexandria, VA 22304.

For more information on this map, please contact the Information Services Branch of the National Oceanic and Atmospheric Administration at 1205 Jefferson Davis Highway, Alexandria, VA 22304.

Base map information shown on this FIRM was provided by Yavapai County. This map, produced in 2005, was provided in digital format at a scale of 1:10,000.

This map, which was created and printed using digital cartographic techniques, may differ slightly from the printed FIRM for this jurisdiction. The Flood Profile and Floodway Data (FP&FD) report of the Flood Insurance Study may contain additional information. For more information on this map, please contact the Information Services Branch of the National Oceanic and Atmospheric Administration at 1205 Jefferson Davis Highway, Alexandria, VA 22304.

Geographic names shown on this map are based on the best data available at the time of publication. Because changes due to annexation or de-annexation may have occurred since this map was published, map users should contact appropriate community officials to verify current corporate line locations.

Please refer to the explanatory notes that appear on the cover map of the county showing the layout of map panels, community map regulatory addresses, and a listing of communities with participating National Flood Insurance Program zones for each community as well as a listing of the panels on which each community is located.

Contact the FIRM Map Service Center at 1-800-358-6618 for information on available products associated with this FIRM. Available products may include preliminary Flood Profiles and Floodway Data reports, and Flood Insurance Study reports, and digital versions of this map. The FIRM Map Service Center can also be reached by fax at 1-800-358-6618 or by e-mail at [firmservice@noaa.gov](mailto:firmservice@noaa.gov).

If you have questions about this map or questions concerning the National Flood Insurance Program in general, please call 1-877-FEMA-MAP (1-877-336-2627) or visit the FEMA website at [www.fema.gov](http://www.fema.gov).

**LEGEND**

**SPECIAL FLOOD HAZARD AREAS SUBJECT TO INUNDATION BY THE 1% ANNUAL CHANCE FLOOD**

**ZONE A:** Special Flood Hazard Area (SFHA) subject to inundation by the 1% annual chance flood. The 1% annual chance flood is the flood that has a 1% chance of being equaled or exceeded in any given year. The 1% annual chance flood is the flood that has a 1% chance of being equaled or exceeded in any given year. The 1% annual chance flood is the flood that has a 1% chance of being equaled or exceeded in any given year.

**ZONE X:** Special Flood Hazard Area (SFHA) subject to inundation by the 1% annual chance flood. The 1% annual chance flood is the flood that has a 1% chance of being equaled or exceeded in any given year. The 1% annual chance flood is the flood that has a 1% chance of being equaled or exceeded in any given year. The 1% annual chance flood is the flood that has a 1% chance of being equaled or exceeded in any given year.

**ZONE D:** Special Flood Hazard Area (SFHA) subject to inundation by the 1% annual chance flood. The 1% annual chance flood is the flood that has a 1% chance of being equaled or exceeded in any given year. The 1% annual chance flood is the flood that has a 1% chance of being equaled or exceeded in any given year. The 1% annual chance flood is the flood that has a 1% chance of being equaled or exceeded in any given year.

**OTHER FLOOD AREAS:** Areas of flood hazard not included in the Special Flood Hazard Areas. These areas are shown on the map with a different shading pattern.

**OTHER AREAS:** Areas that are not subject to inundation by the 1% annual chance flood. These areas are shown on the map with a different shading pattern.

**BOUNDARIES:** Boundaries of the Special Flood Hazard Areas, other flood hazard areas, and other areas. These boundaries are shown on the map with a different shading pattern.

**ROADS:** Roads shown on the map. These roads are shown on the map with a different shading pattern.

**WATER BODIES:** Water bodies shown on the map. These water bodies are shown on the map with a different shading pattern.

**UTM COORDINATES:** UTM coordinates shown on the map. These coordinates are shown on the map with a different shading pattern.

**MAP SCALE:** MAP SCALE = 1" = 2000' (1:2000). Scale bars are provided in feet and meters.

**EFFECTIVE DATE OF REVISIONS TO THIS PANEL:** EFFECTIVE DATE OF REVISIONS TO THIS PANEL: 09/03/2010.

**REVISIONS:** REVISIONS TO THIS PANEL: 09/03/2010.

**APPROVED FOR PUBLICATION:** APPROVED FOR PUBLICATION: 09/03/2010.

**DATE OF PUBLICATION:** DATE OF PUBLICATION: 09/03/2010.
