

NOTES TO USERS

This map is for use in administering the National Flood Insurance Program. It does not constitute a warranty of accuracy or a guarantee of insurance coverage. It is not intended to be used for any purpose other than that for which it was prepared. The user assumes all responsibility for any use of this map for purposes other than those intended.

To obtain more detailed information in areas where **Base Flood Elevations** are shown, users should refer to the Flood Profile and Floodway Data (FPFD) report of the Flood Insurance Study (FIS) report that accompanied this FEMA Flood Insurance Study report. The FPFD report contains detailed information on the flood profile and floodway data. These data should be used in the same manner as the flood profile and floodway data shown on this map. The FPFD report should be obtained in conjunction with the FIS for purposes of construction and floodplain management.

Coastal Base Flood Elevations shown on this map are the result of an analysis of 100 Year Annual Vertical Datum of 1988 (AVD88) data. Users of this FEMA Flood Insurance Study report should be aware that the AVD88 data are based on the Survey of Base Elevation Station data in the Flood Insurance Study report for the jurisdiction. Elevations shown in the Survey of Base Elevation Station data should be used for construction and floodplain management purposes when they are higher than the elevations shown on this FEMA Flood Insurance Study report.

Boundaries of the **Floodways** were compiled at cross sections and interpolated between cross sections. The boundaries were based on hydraulic considerations with regard to the elevation of the National Flood Insurance Program. Floodway widths and other pertinent floodway data are provided in the Flood Insurance Study report for the jurisdiction.

Certain areas not in Special Flood Hazard Areas may be protected by **Flood Protection Structures**. Refer to Section 2.3 "Flood Protection Structures" of the Flood Insurance Study report for information on flood control structures for this jurisdiction.

The **projection** used in the preparation of this map was Universal Transverse Mercator (UTM) Zone 13. The **datum** used was the North American Datum of 1988 (NAD83). The **vertical datum** used in the preparation of this map was the National Vertical Datum of 1988 (AVD88). For information regarding conversion between the National Vertical Datum of 1988 and other vertical datums, users should refer to the National Geodetic Survey website at www.ngs.noaa.gov or contact the National Geodetic Survey at the following address:

To obtain current elevation, description, and location information for **beach nourishment** shown on this map, please contact the Information Services Branch of the National Geodetic Survey at (802) 770-0282, or visit its website at www.ngs.noaa.gov.

Base map information shown on this map was provided by Yavapai County. This map, produced in 2005, was provided in digital format at a scale of 1:12,000.

This map, which was created and printed using digital cartographic techniques, may differ from the printed map for this jurisdiction. The Flood Profile and Floodway Data shown on this map were derived from the printed FIS report that accompanied this FEMA Flood Insurance Study report. As a result, the Flood Profile and Floodway Data shown on this map may differ from the printed FIS report that accompanied this FEMA Flood Insurance Study report. Users should refer to the printed FIS report for the most current information on the Flood Profile and Floodway Data shown on this map.

Geographic details shown on this map are based on the best data available at the time of publication. Because changes due to amendments or discontinuance may have occurred since the map was published, users should contact appropriate community officials to verify current geographic locations.

Please refer to the explanatory notes that appear on an overview map of the county showing the layout of map panels covering this regulatory subdivision, and a listing of contributing data sources for the National Flood Insurance Program, for each community as well as a listing of the panels on which each community is located.

Contact the **FEMA Map Service Center** at 1-800-358-6118 for information on available products associated with this FEMA Flood Insurance Study report, including preliminary report letters of Map Change, a Flood Insurance Study report, and digital versions of this map. The FEMA Map Service Center website is available at www.fema.gov or by e-mail at fema@fema.gov.

If you have **questions about this map** or questions concerning the National Flood Insurance Program in general, please call 1-877-FEMA-MAP (1-877-362-6277) or visit the FEMA website (www.fema.gov).
