

**NOTES TO USERS**

This map is for use in administering the National Flood Insurance Program. It does not necessarily depict the actual location of flooding, particularly from local drainage or runoff. This information is intended to be used for general information purposes only and is not intended to be used for any other purpose.

To obtain more detailed information in areas where Base Flood Elevations are shown, please refer to the Flood Insurance Rate Study (FIRM) for the area. The Flood Profile and Floodway Data and/or Summary of Damaged Structures data contained within the Flood Insurance Rate Study (FIRM) report the actual elevations. This FIRM data should be used to determine the actual elevation of the structure. Flood profiles may also be used to determine the actual elevation of the structure. Flood profiles may also be used to determine the actual elevation of the structure. Flood profiles may also be used to determine the actual elevation of the structure.

**Coastal Base Flood Elevations:** Coasts are the only application of the Coastal Base Flood Elevations (CBFE) shown on this map. CBFEs are shown on the map as a solid line with a dashed line. CBFEs are shown on the map as a solid line with a dashed line. CBFEs are shown on the map as a solid line with a dashed line. CBFEs are shown on the map as a solid line with a dashed line.

**Boundaries of the Floodway:** Boundaries of the Floodway were compiled at cross sections and interpolated between cross sections. The Floodway boundaries are based on hydraulic considerations and are not intended to be used for any other purpose. Floodway boundaries are shown on the map as a solid line with a dashed line. Floodway boundaries are shown on the map as a solid line with a dashed line.

**Coastal areas not in Special Flood Hazard Areas:** Coastal areas not in Special Flood Hazard Areas may be protected by flood insurance. Information on Section 2.0 "Flood Protection Measure" of the Flood Insurance Study report for information on flood control structures for this jurisdiction.

**Geographic data shown on this map are based on the best data available at the time of publication.** Because changes due to construction or de-construction may have occurred since the data were collected, map users should contact appropriate community officials to verify current geographic locations.

Please refer to the regulatory agency Map Index for an overview map of the county showing the layout of map panels, community map regulatory addresses, and a listing of community data concerning National Flood Insurance Program zones for each community as well as a listing of the panels on which each community is located.

Contact the FEMA Map Service Center at 1-800-358-6118 for information on available products associated with the FIRM. Available products may include preliminary report letters of Map Change, a Flood Insurance Study report, and/or digital versions of the map.
