

**NOTES TO USERS**

This map is for use in administering the National Flood Insurance Program. It does not constitute a warranty of any kind. The user assumes all responsibility for the use of this map. The user should consult the National Flood Insurance Program Manual for more information on the use of this map.

To obtain more detailed information in areas where Base Flood Elevations are shown, the user should consult the Flood Profile and Floodway Data and/or Summary of Elevation Elevations data contained within the Flood Insurance Study (FIS) report that contains this data. Users should be aware that FIS data shown on the FIS report represent actual elevation data. These FIS data are intended for use in insurance rating purposes only and should not be used as the sole basis of flood insurance information. Flood elevation data presented in the FIS report should be related to topographic data presented in the FIS report for construction and floodplain management purposes when they are higher than the elevations shown on the FIS report.

Coastal Base Flood Elevations shown on this map are the result of information of 100 Year Average Recurrence Interval (ARI) Storm Surge (ASR) based on the National Oceanic and Atmospheric Administration's (NOAA) Coastal Storm Surge (CSS) report for the Atlantic and Gulf of Mexico Coasts. These ASR elevations are provided in the Flood Insurance Study report for the community. Flood elevations shown in the Flood Insurance Study report for the community and other pertinent floodway data are provided in the Flood Insurance Study report for the community.

Coastal areas not in Special Flood Hazard Areas may be protected by flood insurance. Refer to Section 2 of the Flood Insurance Manual of the National Flood Insurance Program for information on flood control structures in this area.

The protection used in the preparation of this map was Universal Transverse Mercator (UTM) Zone 18. The datum used was the North American Datum of 1983 (NAD 83). Elevation in meters, reported in feet, is used in the production of FIS data. For adjacent jurisdictions, they report in different elevations in feet, meters, or other units. These elevations do not affect the accuracy of this FIS.

Flood elevations on this map are referenced to the North American Vertical Datum of 1988. These flood elevations must be compared to elevation information in the same vertical datum. For information regarding conversion between the National Oceanic and Atmospheric Administration's (NOAA) National Vertical Datum of 1988 and the National Geodetic Survey's (NGS) National Vertical Datum of 1988, see the National Geodetic Survey website at <http://www.ngs.noaa.gov> or contact the National Geodetic Survey at the following address:

 (703) 755-3329

To obtain current elevation, description, and/or location information for benchmarks shown on this map, please contact the Information Services Branch of the National Geodetic Survey at (803) 772-8284, or visit its website at <http://www.ngs.noaa.gov>.

Base map information shown on this FIS was provided by Yavapai County. This map, produced in 2005, was provided in digital format at a scale of 1"=1000'.

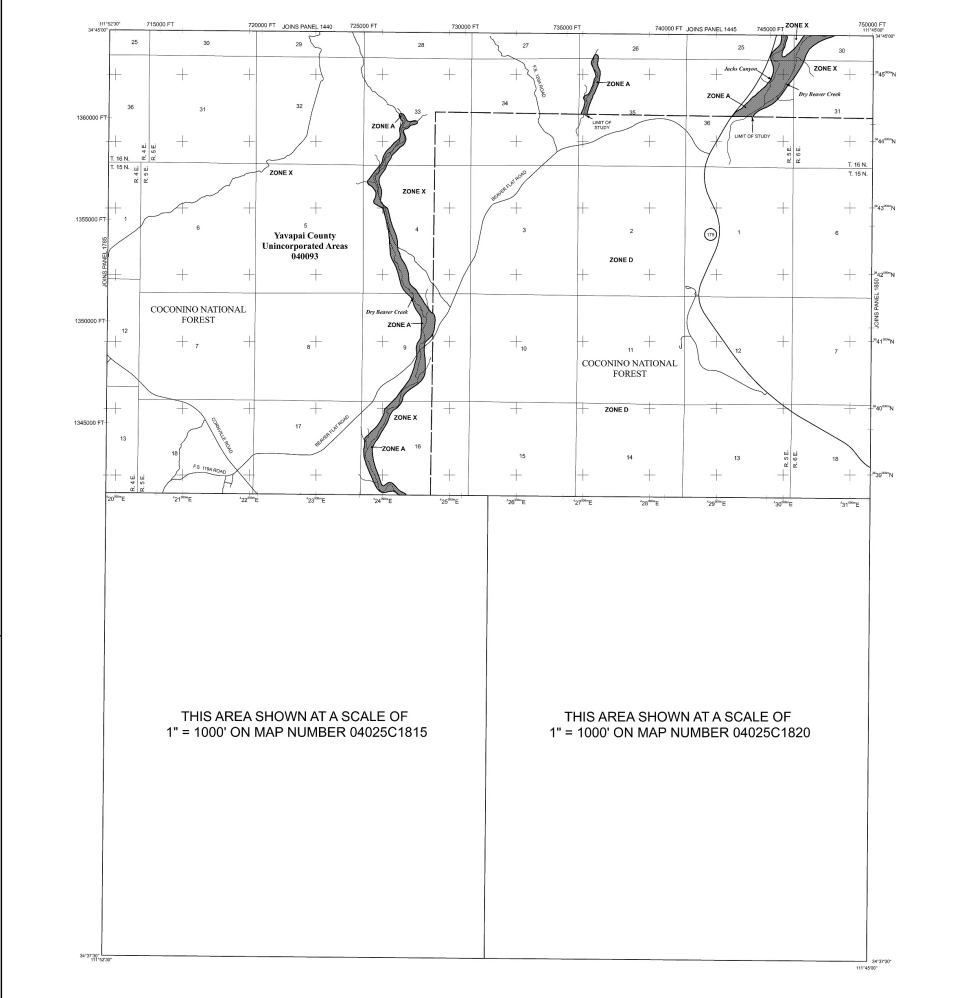

This map, which was created and printed using digital cartographic techniques from those shown on the previous FIS for this jurisdiction. The Flood Profile and Floodway Data were transferred from the previous FIS and may have been adjusted to reflect the most current available information. As a result, the Flood Profile and Floodway Data shown on the Flood Insurance Study report (which contains additional information) may differ from those shown on this map.

Geographic details shown on this map are based on the best data available at the time of publication. Because changes due to construction or development may have occurred since the data were collected, users are advised to contact appropriate community officials to verify current geographic data locations.

Please refer to the regulatory agency map books for a complete map of the county, showing the layout of map panels, community map regulatory addresses, and a listing of communities with corresponding National Flood Insurance Program maps for each community as well as a listing of the panels on which each community is located.

Contact the FEMA Map Service Center at 1-800-358-6118 for information on available products associated with this FIS. Available products may include preliminary report letters of Map Change, a Flood Insurance Study report, and digital versions of this map. The FEMA Map Service Center can also be reached by fax at (800)358-6118 or by e-mail at [fema@fema.dhs.gov](mailto:fema@fema.dhs.gov).

If you have questions about this map or questions concerning the National Flood Insurance Program in general, please call 1-877-FEMA-MAP (1-877-368-2627) or visit the FEMA website (<http://www.fema.gov>).

THIS AREA SHOWN AT A SCALE OF 1" = 1000' ON MAP NUMBER 04025C1820

**LEGEND**

- SPECIAL FLOOD HAZARD AREAS SUBJECT TO INUNDATION BY THE 1% ANNUAL CHANCE FLOOD
- ZONE A: Flood depths of 1 to 3 feet (shaded area of parking); show Flood Insurance Information.
- ZONE X: Flood depths of 1 to 3 feet (shaded area of parking); show Flood Insurance Information.
- ZONE D: Special Flood Hazard Areas formerly produced from the 1% annual chance flood data. These areas are not subject to inundation by the 1% annual chance flood. Flood depths are not shown. Flood depths are not shown. Flood depths are not shown.
- FLOODWAY AREAS IN ZONE A: Coastal flood areas with velocity based wave action; show Flood Insurance Information.
- FLOODWAY AREAS IN ZONE X: Coastal flood areas with velocity based wave action; show Flood Insurance Information.
- OTHER FLOOD AREAS: Areas of the National Flood Insurance Program that are not subject to inundation by the 1% annual chance flood. These areas are not subject to inundation by the 1% annual chance flood.
- OTHER AREAS: Areas not subject to inundation by the 1% annual chance flood. These areas are not subject to inundation by the 1% annual chance flood.
- ZONE 1: Areas of the National Flood Insurance Program that are not subject to inundation by the 1% annual chance flood. These areas are not subject to inundation by the 1% annual chance flood.
- COASTAL BARRIER RESOURCES SYSTEM (CBRS) AREAS: Areas of the National Flood Insurance Program that are not subject to inundation by the 1% annual chance flood. These areas are not subject to inundation by the 1% annual chance flood.
- OTHERWISE PROTECTED AREAS (OPA): Areas of the National Flood Insurance Program that are not subject to inundation by the 1% annual chance flood. These areas are not subject to inundation by the 1% annual chance flood.
- FLOODWAY BOUNDARY: Boundary of the floodway.
- ZONE BOUNDARY: Boundary of the flood zone.
- OTHER AND OPA BOUNDARY: Boundary of other areas and OPA.
- BOUNDARY OF SPECIAL FLOOD HAZARD AREAS OF DIFFERENT BASE FLOOD ELEVATIONS: Boundary of special flood hazard areas of different base flood elevations.
- BASE FLOOD ELEVATION: Base flood elevation in feet.
- FLOODWAY ELEVATION: Floodway elevation in feet.
- 100 YEAR AVERAGE RECURRENCE INTERVAL (ARI) STORM SURGE (ASR) ELEVATION: 100-year ARI storm surge elevation in feet.
- 500 YEAR AVERAGE RECURRENCE INTERVAL (ARI) STORM SURGE (ASR) ELEVATION: 500-year ARI storm surge elevation in feet.
- COASTAL STORM SURGE (CSS) ELEVATION: Coastal storm surge elevation in feet.
- BLOCK WITH LOW ELEVATION IN RELATION TO LOCAL SECTION OF THE FLOODWAY: Block with low elevation in relation to local section of the floodway.
- MFLS: Mean High Water Line.
