

**NOTES TO USERS**

This map is for use in administering the National Flood Insurance Program. It does not constitute a warranty of any kind, nor does it constitute a contract. The user assumes all responsibility for any use of this map for purposes not intended by the National Flood Insurance Program.

To obtain more detailed information in areas where **Base Flood Elevations** are shown, users are encouraged to consult the Flood Profiles and Floodway Data and/or Summary of Elevation Exemptions data contained within the Flood Insurance Study (FIS) report that accompanies this FIRM. Users should be aware that FIS data shown on the FIRM represent the best available information. These FIS data are subject to future updates and improvements. Flood elevation data presented in the FIS report should be utilized in conjunction with the FIS for purposes of construction and/or floodplain management.

**Coastal High Water Flood Elevations** shown on this map are the result of an analysis of U.S. Army Corps of Engineers data and are provided in the Summary of Elevation Exemptions data in the Flood Insurance Study report for this jurisdiction. Elevations shown in the Summary of Elevation Exemptions data should be used for construction and/or floodplain management purposes when they are higher than the elevations shown on this FIRM.

Boundaries of the **Floodways** were compiled at cross sections and interpolated between cross sections. The boundaries are based on hydraulic considerations, width and other pertinent floodway data are provided in the Flood Insurance Study report for this jurisdiction.

Certain areas not in Special Flood Hazard Areas may be protected by **Flood Elevation Exemptions**. Refer to Section 2 "Flood Elevation Exemptions" of the Flood Insurance Study report for information on flood control structures for this jurisdiction.

The **protection** used in the preparation of this map was Uniform Flood Insurance Rating Plan 13. The **insurance** data was based on 2005 National Flood Insurance Study (NFIS) data. The **protection** data was based on the production of FIS for adjacent jurisdictions. They may not reflect differences in map, human service jurisdiction boundaries. These differences do not affect the accuracy of this FIRM.

Flood elevations on this map are referenced to the North American Vertical Datum of 1988. These flood elevations must be compared to structure and ground elevations referenced to the same vertical datum. For information regarding conversion between the National Geodetic Survey datum of 1988 and other vertical datums, users are encouraged to contact the National Geodetic Survey at [www.ngs.noaa.gov](http://www.ngs.noaa.gov) or contact the National Geodetic Survey at the following address:

NGS Information Services  
 NGA, NGS-15  
 National Geodetic Survey  
 1215 Jefferson Davis Highway  
 Alexandria, Virginia 22304-6146  
 (703) 755-3328  
 (703) 755-3329

To obtain current elevation, description, and/or location information for **beach** areas shown on this map, please contact the Information Services Branch of the National Geodetic Survey at (703) 755-3328, or visit its website at [www.ngs.noaa.gov](http://www.ngs.noaa.gov).

**Base map** information shown on this FIRM was provided by Yavapai County. This map, produced in 2005, was provided in digital format at a scale of 1"=1,000'.

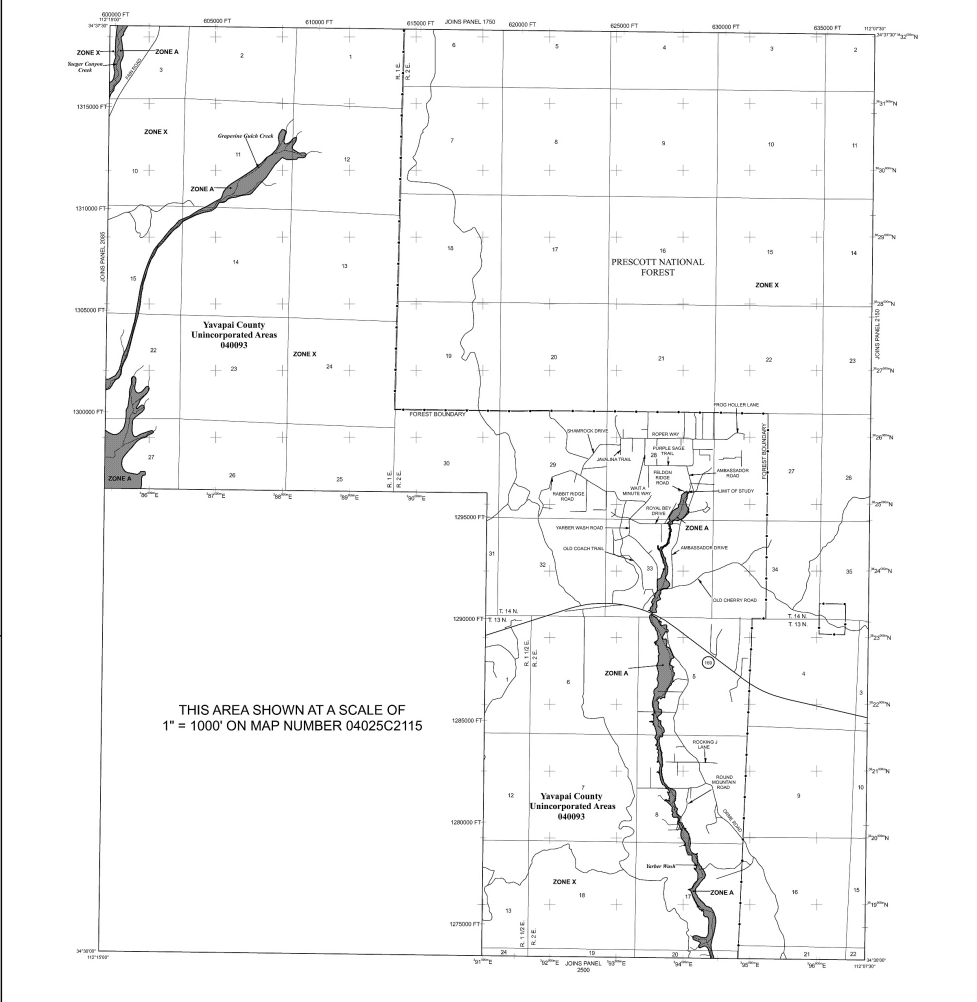

This map, which was created and printed, shows changed configurations from those shown on the previous FIRM for this jurisdiction. The Floodway and Floodway Data were derived from the previous FIRM and may have been adjusted to reflect the most recent available information. As a result, the Flood Profiles and Floodway Data shown in the Flood Insurance Study report (which contains additional information) may not reflect these changed conditions that differ from what is shown on this map.

Geographic details shown on this map are based on the best data available at the time of publication. Because changes due to annexations or de-annexations may have occurred since this map was published, map users should contact appropriate community officials to verify current corporate line locations.

Please refer to the explanatory **panel map** for an overview map of the county showing the layout of map panels, community map resolution, address, and a listing of communities with corresponding National Flood Insurance Program zones for each community as well as a listing of the panels on which each community is located.

Contact the **FEMA Map Service Center** at 1-800-358-6118 for information on available products associated with this FIRM. Available products may include preliminary report letters of Map Change, a Flood Insurance Study report, and/or digital versions of this map. The FEMA Map Service Center can be reached by fax at (800)358-6118 or by e-mail at [fema@fema.dhs.gov](mailto:fema@fema.dhs.gov).

If you have questions about this map or questions concerning the National Flood Insurance Program in general, please call 1-877-FEMA-MAP (1-877-362-6277) or visit the FEMA website at [www.fema.gov](http://www.fema.gov).
