

NOTES TO USERS

This map is for use in administering the National Flood Insurance Program. It does not constitute a warranty of accuracy or a promise, particularly from the Government, of any kind. The Government will not be held liable for damages or losses resulting from the use of this map. The Government will not be held liable for damages or losses resulting from the use of this map.

To obtain more detailed information in areas where Base Flood Elevations (BFEs) are shown, users are encouraged to consult the Flood Profiles and Floodway Data and/or Floodway Elevation Tables contained within the Flood Insurance Study (FIS) report that contains this FIS. Users should be aware that BFEs shown on the FIS report represent the best available information. These BFEs are subject to future revision. Any information that is used in the determination of flood insurance information, including flood elevation data presented in the FIS report, should be obtained in conjunction with the FIS for purposes of construction and/or floodplain management.

Coastal Base Flood Elevations (CBEs) on this map are the combination of 100 Year Average Vertical Datum of 1988 (AVD 88) values of the FIS and the wave from coastal flood elevations as also provided in the Survey of Coastal Elevation Data in the Flood Insurance Study report for the jurisdiction. Elevations shown in the Survey of Coastal Elevation Data should be used for construction and/or floodplain management purposes when they are higher than the elevations shown on this FIS.

Boundaries of the Floodways were compiled at cross sections and interpolated across sections. The boundaries were based on hydraulic computations with input of information of the National Flood Insurance Program. Floodway and other pertinent boundary data are provided in the Flood Insurance Study report for the jurisdiction.

Certain areas not in Special Flood Hazard Areas may be protected by flood insurance. Refer to Section 2.1 "Flood Protection Measures" of the Flood Insurance Study report for information on flood control structures for this jurisdiction.

The projection used in the preparation of this map was Universal Transverse Mercator (UTM) Zone 12. The datum used was the North American Datum of 1983. In areas where ground elevations are used in the production of FISs, for adjacent jurisdictions, they must be adjusted to the datum used in this FIS. These elevations do not affect the accuracy of this FIS.

Flood elevations on this map are referenced to the North American Vertical Datum of 1988. These flood elevations must be corrected to structure and ground elevations referenced to the same vertical datum. For information regarding conversion between the National Flood Insurance Study datum of 1988 and other vertical datums of 1988, see the National Geographic Survey website at <http://www.ngs.noaa.gov> or contact the National Geographic Survey at the following address:

202-857-2243

To obtain current elevation, description, and/or location information for bench marks shown on this map, please contact the Information Services Branch of the National Geographic Survey at (800) 778-6242, or visit its website at <http://www.ngs.noaa.gov>.

Base map information shown on this FIS was provided by Yavapai County. This map, produced in 2005, was provided in digital format at a scale of 1:10,000.

This map, which was created and printed using digital cartographic techniques, may differ from the printed FIS for this jurisdiction. The Floodway and Floodway Elevation Tables contained in the FIS report may have been adjusted to reflect the digital format of this map. The National Geographic Survey website at <http://www.ngs.noaa.gov> or contact the National Geographic Survey at the following address:

Geographic details shown on this map are based on the best data available at the time of publication. Because changes due to construction or development may have occurred since the data was collected, map users should contact appropriate community officials to verify current project locations.

Please refer to the explanatory material Map Users for an overview map of the county showing the layout of map panels, community map regulatory addresses, and a listing of communities with participating National Flood Insurance Program for each community as well as a listing of the panels on which each community is located.

Contact the FEMA Map Service Center at 1-800-368-6868 for information on available products associated with this FIS. Available products may include preliminary report letters of Map Change, a Flood Insurance Study report, and/or digital versions of this map. The FEMA Map Service Center can be reached by fax at (800) 368-6868 or by website at <http://www.fema.gov>.

If you have questions about this map or questions concerning the National Flood Insurance Program in general, please call 1-877-FEMA-MAP (1-877-368-6247) or visit FEMA website <http://www.fema.gov>.

LEGEND

SPECIAL FLOOD HAZARD AREAS SUBJECT TO INUNDATION BY THE 2% ANNUAL CHANCE FLOOD

- ZONE A: Special Flood Hazard Areas Subject to Inundation by the 2% Annual Chance Flood
- ZONE X: Special Flood Hazard Areas Subject to Inundation by the 1% Annual Chance Flood
- ZONE D: Special Flood Hazard Areas Subject to Inundation by the 500-Year Flood

FLOODWAY AREAS IN ZONE A

- ZONE A-1: Floodway Areas Subject to Inundation by the 2% Annual Chance Flood
- ZONE A-2: Floodway Areas Subject to Inundation by the 1% Annual Chance Flood
- ZONE A-3: Floodway Areas Subject to Inundation by the 500-Year Flood

OTHER FLOOD AREAS

- ZONE B: Special Flood Hazard Areas Subject to Inundation by the 1% Annual Chance Flood
- ZONE C: Special Flood Hazard Areas Subject to Inundation by the 500-Year Flood

OTHER AREAS

- UNINCORPORATED AREAS: Areas not included in the FIS
- UNINCORPORATED AREAS: Areas not included in the FIS

BOUNDARIES

- PROPERTY BOUNDARIES: Dashed lines
- COMMUNITY BOUNDARIES: Solid lines
- STATE BOUNDARIES: Thick solid lines
- UNINCORPORATED AREAS: Dotted lines
- LIMIT OF STUDY: Dashed line
- LIMIT OF FLOOD: Solid line

POINTS OF INTEREST

- WATER BODIES: Blue areas
- ROADS: Yellow lines
- RAILROADS: Red lines
- POWER LINES: Green lines
- WATER TOWER: Yellow circle with 'T'
- WELL: Yellow circle with 'W'
- WATER TOWER: Yellow circle with 'T'
- WELL: Yellow circle with 'W'
