

**NOTES TO USERS**

This map is for use in administering the National Flood Insurance Program. It does not necessarily identify areas subject to flooding, particularly from local drainage sources, or areas of flood risk. This information is intended solely for use by the Federal Emergency Management Agency (FEMA) and its authorized representatives. It is not intended for use by any other agency, individual, or business.

To obtain more detailed information in areas where **Base Flood Elevations** are shown, contact the Flood Profile and Floodway Data and/or Summary of Damaged Structures (as relevant) with the Flood Insurance Rate Study report for the community. This FEMA study should be made available to the community upon request. The Flood Profile and Floodway Data and/or Summary of Damaged Structures should be used to determine the base flood elevation for each structure. Flood elevations shown on this map should be used for construction and/or floodplain management purposes when they are higher than the elevations shown on the FEMA study.

**Coastal Base Flood Elevations** shown on this map apply to structures of 1,000 square feet or more. The FEMA study should be used to determine the base flood elevation for structures less than 1,000 square feet. Flood elevations shown on this map should be used for construction and/or floodplain management purposes when they are higher than the elevations shown on the FEMA study.

Boundaries of the Floodway are shown on this map. Floodway boundaries are shown with light gray lines. Floodway boundaries are shown with light gray lines. Floodway boundaries are shown with light gray lines.

Certain areas not in Special Flood Hazard Areas may be protected by flood control structures. Refer to Section 2 of the Flood Insurance Study report for information on flood control structures for this community.

The projection used in the preparation of this map was Universal Transverse Mercator, NAD 83. The datum used was the North American Vertical Datum of 1988. The datum used was the North American Vertical Datum of 1988. The datum used was the North American Vertical Datum of 1988.

Flood elevations on this map are referenced to the North American Vertical Datum of 1988. These flood elevations must be compared to structure and ground elevations referenced to the same vertical datum. For information regarding conversion between the National Flood Insurance Program datum and other vertical datums, refer to the National Flood Insurance Program website at [www.fema.gov/nfip](http://www.fema.gov/nfip) or contact the National Geographic Survey at 1-800-368-6868.
