

**NOTES TO USERS**

This map is for use in administering the National Flood Insurance Program. It does not necessarily identify areas subject to flooding, particularly from local causes, or of local use. This information is intended to be used for purposes of providing additional flood insurance information.

To obtain more detailed information in areas where Base Flood Elevations are shown, please refer to the Flood Insurance Rate Study report for the community. The Flood Profile and Floodway Data and/or Summary of Damaged Structures data contained within the Flood Insurance Rate Study report for the community. The FEMA Users should be aware that FEMA's Flood Insurance Rate Study report is not intended to be used as the sole basis of flood insurance information. Accordingly, flood insurance information presented in this report should be obtained in conjunction with the FEMA for purposes of construction and/or floodplain management.

**Coastal Base Flood Elevations:** Coasts on the right side of this map are identified as Coastal Base Flood Elevations of 100 Year (NVD) (100 YR) based on the FEMA's Coastal Base Flood Elevation Study. These elevations are provided in the Summary of Damaged Structures data in the Flood Insurance Rate Study report for the jurisdiction. Elevations shown in the Summary of Damaged Structures data should be used for construction and/or floodplain management purposes when they are higher than the elevations shown on this map.

Boundaries of the Floodways were compiled at cross sections and interpolated between cross sections. The boundaries were based on hydraulic calculations with input of measurements of the National Flood Insurance Program. Floodway walls and other pertinent floodway data are provided in the Flood Insurance Rate Study report for the jurisdiction.

Certain areas not in Special Flood Hazard Areas may be protected by flood insurance. Refer to Section 2.3 "Flood Protection Measures" of the Flood Insurance Rate Study report for information on flood control structures for this jurisdiction.

The projection used in the preparation of this map was Universal Transverse Mercator, Zone 12. The boundary data was from the 2000 National Geospatial Data Base, unprojected projection of UTM zones used in the production of FEMA's digital elevation data. For information regarding conversion between the National Geospatial Data Base and UTM zones, refer to the National Geospatial Data Base User Manual (NGBDM) or contact the National Geospatial Survey at [www.ngs.noaa.gov](http://www.ngs.noaa.gov).

Flood elevations on this map are referenced to the North American Vertical Datum of 1988. These flood elevations must be compared to elevation and ground referenced to the same vertical datum. For information regarding conversion between the National Geospatial Data Base and UTM zones, refer to the National Geospatial Data Base User Manual (NGBDM) or contact the National Geospatial Survey at [www.ngs.noaa.gov](http://www.ngs.noaa.gov).

To obtain current elevation, description, and/or location information for bench marks shown on this map, please contact the Information Services Branch of the National Geospatial Survey at (301) 751-3282, or visit its website at [www.ngs.noaa.gov](http://www.ngs.noaa.gov).

Base map information shown on this map was provided by Yavapai County. This map, produced in 2005, was provided in digital format at a scale of 1:10,000.

This map, which was created and printed, shows changed configurations from those shown on the previous FIRM for this jurisdiction. The Floodway and Floodway Wall elevations shown on this map may have been adjusted to reflect the most recent available data. As a result, the Flood Profile and Floodway Data within the Flood Insurance Rate Study report (which contains unprojected hydraulic data) may reflect elevation information that differ from what is shown on this map.

Geographic details shown on this map are based on the best data available at the time of publication. Because changes due to construction or de-construction may have occurred since the map was published, map users should contact appropriate community officials to verify current corporate land locations.

Please refer to the regulatory period Map Index for an overview map of the county showing the layout of map panels, community map regulatory addresses, and a listing of communities within National Flood Insurance Program zones for each community as well as a listing of the panels on which each community is located.

Contact the FEMA Map Service Center at 1-800-358-6118 for information on available products associated with the FIRM. Available products may include: effective Flood Insurance Rate Study report, Flood Insurance Rate Study report, digital elevation data. The FEMA Map Service Center may also be reached by fax at 1-800-358-6118 or by e-mail at [fema@fema.dhs.gov](mailto:fema@fema.dhs.gov).

If you have questions about this map or questions concerning the National Flood Insurance Program in general, please call 1-877-FEMA-MAP (1-877-368-2627) or visit the FEMA website at [www.fema.gov](http://www.fema.gov).

**LEGEND**

- SPECIAL FLOOD HAZARD AREAS SUBJECT TO INUNDATION BY THE 1% ANNUAL CHANCE FLOOD**
- ZONE A**: Special Flood Hazard Area (SFHA) subject to inundation by the 1% Annual Chance Flood.
  - ZONE X**: Special Flood Hazard Area (SFHA) subject to inundation by the 1% Annual Chance Flood.
  - ZONE AE**: Special Flood Hazard Area (SFHA) subject to inundation by the 1% Annual Chance Flood.
  - ZONE AD**: Special Flood Hazard Area (SFHA) subject to inundation by the 1% Annual Chance Flood.
  - ZONE AR**: Special Flood Hazard Area (SFHA) subject to inundation by the 1% Annual Chance Flood.
  - ZONE AV**: Special Flood Hazard Area (SFHA) subject to inundation by the 1% Annual Chance Flood.
  - ZONE VE**: Special Flood Hazard Area (SFHA) subject to inundation by the 1% Annual Chance Flood.
  - ZONE V**: Special Flood Hazard Area (SFHA) subject to inundation by the 1% Annual Chance Flood.
  - ZONE VE**: Coastal Flood zone with velocity hazard (wave action) in Base Flood Floodway.
  - ZONE VE**: Coastal Flood zone with velocity hazard (wave action) in Base Flood Floodway.
- FLOODWAY AREAS IN ZONE AE**
- AE**: Floodway area in Zone AE.
- OTHER FLOOD AREAS**
- AE**: Floodway area in Zone AE.
- OTHER AREAS**
- AE**: Floodway area in Zone AE.
- BOUNDARIES AND OTHER AREAS**
- AE**: Floodway area in Zone AE.
- MAP SCALE**
- 1:10,000
