

NOTES TO USERS

This map is for use in administering the National Flood Insurance Program. It does not necessarily identify areas subject to flooding, particularly from local drainage, or areas of flood. This information is intended to be used for purposes of providing additional flood hazard information.

To obtain more detailed information in areas where Base Flood Elevations (BFEs) are shown, users are encouraged to consult the Flood Profiles and Floodway Data and/or Summary of Damaged Locations (SLDs) prepared by the Flood Insurance Study (FIS) report that accompanies this FEMA Map. Users should be aware that BFEs shown on the FIS report represent maximum elevations. These BFEs are intended for use in determining whether protection may be required. For the sake of flood insurance information, flood elevation data presented in the FIS report should be related to elevation with the FIRM for purposes of construction and/or floodplain management.

Coastal Base Flood Elevations shown on this map apply to the National Oceanic and Atmospheric Administration's (NOAA) Vertical Datum of 1988 (NOVD 88). Users of this FIRM should be aware that coastal flood elevations are also provided in the Summary of Damaged Locations (SLDs) in the Flood Insurance Study report for the jurisdiction. Elevations shown in the Summary of Damaged Locations table should be used for construction and/or floodplain management purposes when they are higher than the elevations shown on this FIRM.

Boundaries of the floodways are compiled at cross sections and interpolated between cross sections. The floodway was based on hydraulic calculations with input of information of the National Flood Insurance Program. Floodway widths and other pertinent floodway data are provided in the Flood Insurance Study report for the jurisdiction.

Certain areas not in Special Flood Hazard Areas may be protected by flood insurance. Section 2.3 "Flood Protection Measures" of the Flood Insurance Study report for information on flood control structures for this jurisdiction.

The projection used in the preparation of this map was Universal Transverse Mercator, Zone 13. The datum used was the North American Datum of 1983. In areas where ground elevation or LTM data were used in the production of the FIS, for adjacent jurisdictions, they may not reflect differences in map datum, survey projection techniques. These differences do not affect the accuracy of this FIRM.

Flood elevations on this map are referenced to the North American Vertical Datum of 1988. These flood elevations must be compared to structures and ground elevations referenced to the same vertical datum. For information regarding conversion between the National Flood Insurance Study datum of 1988 and the National Vertical Datum of 1988, see the National Geospatial Survey website at <http://www.ngs.noaa.gov> or contact the National Geospatial Survey at the following address:

To obtain current elevation, description, and/or location information for bench marks shown on this map, please contact the Information Services Branch of the National Geospatial Survey at (801) 771-2324, or visit its website at <http://www.ngs.noaa.gov>.

Base map information shown on this FIRM was provided by Yavapai County. This map, produced in 2005, was provided in digital format at a scale of 1:10,000.

This map, which was created and printed, shows changed configurations from those shown on the previous FIRM for this jurisdiction. The floodway and floodway data were transferred from the previous FIRM may have been adjusted to reflect the National Vertical Datum of 1988. See the National Geospatial Survey website at <http://www.ngs.noaa.gov> or contact the National Geospatial Survey at the following address:

Geographic details shown on this map are based on the best data available at the time of publication. Because changes due to amendments or de-amendments may have occurred since the map was published, map users should contact appropriate community officials to verify current corporate locations.

Please refer to the regulatory agency Map Index for an overview map of the county showing the layout of map panels, community map regulatory subdivisions, and a listing of communities within National Flood Insurance Program zones for each community as well as a listing of the panels on which each community is located.

Contact the FEMA Map Service Center at 1-800-358-6638 for information on available products associated with the FIRM. Available products may include preliminary report Letters of Map Change, a Flood Insurance Study report, and/or digital versions of this map. The FEMA Map Service Center area is available for the at 1-800-358-6638 and is website at <http://www.fema.gov>.

If you have questions about this map or questions concerning the National Flood Insurance Program in general, please call 1-877-FEMA-MAP (1-877-362-7627) or visit the FEMA website at <http://www.fema.gov>.

LEGEND

SPECIAL FLOOD HAZARD AREAS SUBJECT TO INUNDATION BY THE 1% ANNUAL CHANCE FLOOD

ZONE A
Special Flood Hazard Areas (SFHA) subject to inundation by the 1% annual chance flood.

ZONE X
Special Flood Hazard Areas (SFHA) subject to inundation by the 1% annual chance flood.

ZONE D
Special Flood Hazard Areas (SFHA) subject to inundation by the 1% annual chance flood.

ZONE AE
Special Flood Hazard Areas (SFHA) subject to inundation by the 1% annual chance flood.
