Notice to Flood Insurance Rate Map (FIRM) Database User

It has come to our attention that the March 6, 2018, Yavapai County, Arizona and Incorporated Areas National Flood Hazard Layer (NFHL) and FIRM Database includes incorrect attributes for the Yavapai-Prescott Indian Reservation. The reservation is incorrectly indicated as being within the jurisdictional control of Yavapai County for purposes of compliance with National Flood Insurance Program requirements. Flood hazard data within the reservation is included for informational purposes at the request of the City of Prescott, but the FIRM database should not have associated the reservation with the county. This Notice to User revises the FIRM Database and NFHL to correct this issue.

Please replace any copies of the FIRM Database or NFHL datasets (National Flood Hazard Layer is the national repository of FIRM Databases) for this county that you have downloaded or received previously, by going to the Map Service Center website at msc.fema.gov and downloading the updated NFHL dataset for this county.

Note: The FIRM Panels and FIS Report you received are unaffected by this error.

If you have questions or concerns, please do not hesitate to contact the FEMA Map Information eXchange (FMIX) at (877) 336-2627 or email at FEMAMapSpecialist@riskmapcds.com

Items Corrected	Description of Corrections
NFHL and FIRM Database for 04025C	The POL_NAME1 field was changed from Yavapai County to the Yavapai-Prescott Indian Reservation name and the Yavapai County Community Identification Number (CID) was deleted.

We apologize for any inconvenience this has caused and thank you for your cooperation.

Sincerely,

Patrick "Rick" F. Sacbbit, P.E., Chief

Engineering Services Branch

Federal Insurance and Mitigation Administration
