

NOTES TO USERS

This map is for use in administering the National Flood Insurance Program. It shows the results of the special study conducted to determine the flood insurance rates for the area shown. The community was previously shown on the community flood insurance rate map for the year 1992.

To obtain more detailed information in areas where flood elevations are shown, consult the Flood Profile and Floodway Data and/or Summary of Elevation Elevations data prepared as part of the Flood Insurance Study (FIS) report for the community. These data should be available from the Survey of Flood Insurance. The Flood Profile and Floodway Data and/or Summary of Elevation Elevations data should be used as the basis for flood insurance information. Accordingly, flood elevation data presented in the FIS report should be used in conjunction with the FIS for purposes of construction and floodplain management.

Special Base Flood Elevations shown on this map represent the special base flood elevations for the area shown. These elevations are based on the Flood Insurance Study (FIS) report for the community. The Flood Insurance Study (FIS) report should be used as the basis for flood insurance information. The Flood Insurance Study (FIS) report should be used as the basis for flood insurance information. The Flood Insurance Study (FIS) report should be used as the basis for flood insurance information.

Boundaries of the floodways were computed at cross sections and interpolated between cross sections. The boundaries were based on hydrologic considerations and do not represent the actual boundaries of the floodway. Floodway boundaries shown on this map are provided in the Flood Insurance Study report for the community.

Certain areas not in Special Flood Hazard Areas may be protected by flood insurance. Refer to Section 2 of the Flood Insurance Study report for information on flood control structures for this jurisdiction.

The projection used in the preparation of this map was Universal Transverse Mercator, Zone 12N. The datum used was the North American Datum of 1983. The datum used in the preparation of this map was Universal Transverse Mercator, Zone 12N. The datum used was the North American Datum of 1983. The datum used in the preparation of this map was Universal Transverse Mercator, Zone 12N. The datum used was the North American Datum of 1983.

Flood elevations on this map are referenced to the North American Vertical Datum of 1988. These flood elevations may be converted to structure and ground elevations referenced to the same vertical datum. For information regarding conversion between the National Flood Insurance Study datum and other vertical datums, refer to the National Flood Insurance Study report for the community. The Flood Insurance Study report should be used as the basis for flood insurance information.

Silver Spring, MD 20910-2124
(301) 751-2124

To obtain current elevation, description, and/or location information for bench marks shown on this map, please contact the Information Services Branch of the National Geographic Society at (301) 751-2124, or visit its website at <http://www.ngs.gov/benchmarks>.

Base map information shown on this map was provided by Yavapai County. This map, produced in 2005, was provided in digital format at a scale of 1:10,000.

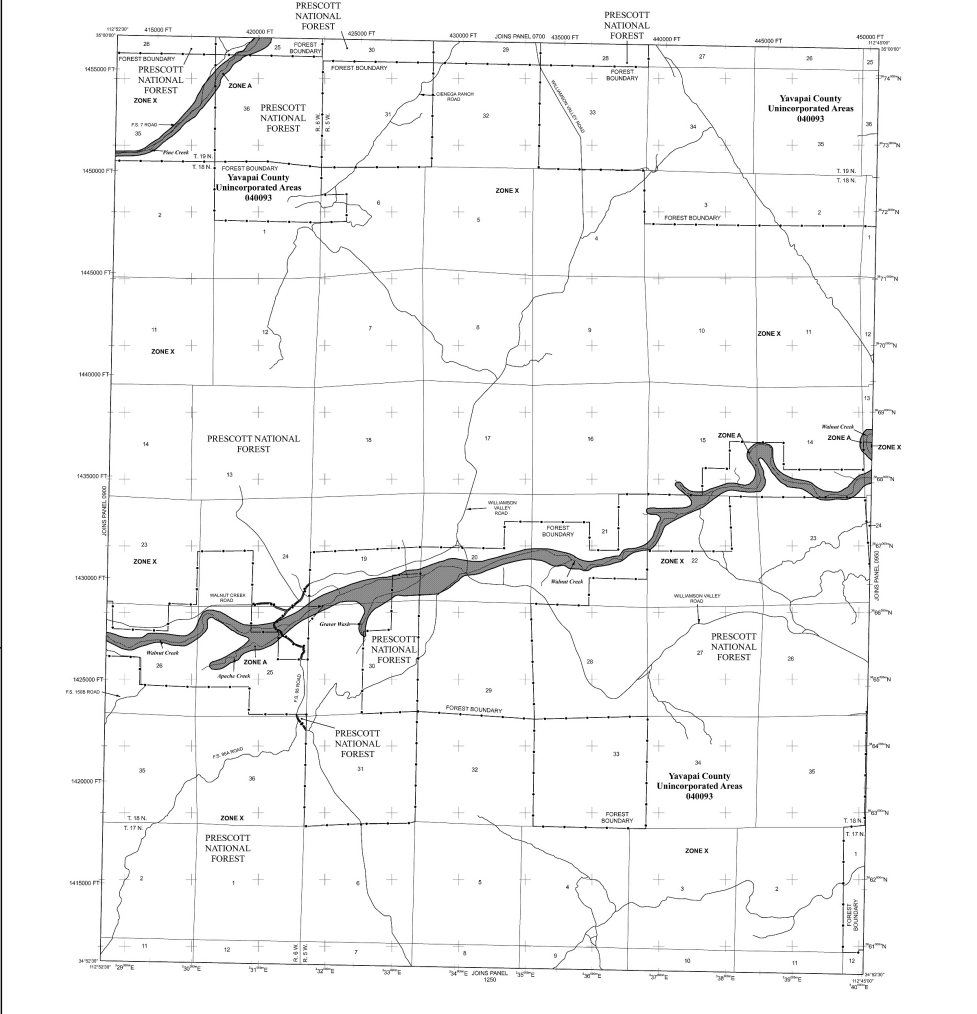

This map, which was prepared and printed using digital techniques, is more accurate than those shown on the previous FIS for this jurisdiction. The Flood Profile and Floodway Data and/or Summary of Elevation Elevations data should be used as the basis for flood insurance information. The Flood Insurance Study (FIS) report should be used as the basis for flood insurance information.

Geographic details shown on this map are based on the best data available at the time of publication. Because changes due to construction or other developments may have occurred since the time this map was published, users are advised to consult appropriate community officials to verify current corporate lot locations.

Please refer to the regulatory agency map books for an outline map of the county showing the layout of map panels. Community map regulatory officials, and a listing of community data concerning National Flood Insurance Program zones for each community as well as a listing of the panels on which each community is located.

Contact the FEMA Map Service Center at 1-800-368-6868 for information on available products associated with the FIS. Available products may include preliminary Flood Insurance Study reports, Flood Insurance Study reports, and/or Flood Insurance Study maps. The FEMA Map Service Center website is available at <http://www.fema.gov> or 1-800-368-6868.

If you have questions about this map or questions concerning the National Flood Insurance Program in general, please call 1-877-FEMA-MAP (1-877-368-2627) or visit the FEMA website (<http://www.fema.gov>).

SPECIAL FLOOD HAZARD AREAS SUBJECT TO INUNDATION BY THE 1% ANNUAL CHANCE FLOOD

- ZONE A:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE AE:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE AH:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE AR:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE AW:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE B:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE C:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE D:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE E:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE F:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE G:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE H:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE I:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE J:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE K:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE L:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE M:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE N:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE O:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE P:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE Q:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE R:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE S:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE T:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE U:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE V:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE W:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE X:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE Y:** Flood elevations are shown. Base Flood Elevation is shown.
- ZONE Z:** Flood elevations are shown. Base Flood Elevation is shown.

FLOODWAY AREAS IN ZONE AE

- ZONE AE:** Flood elevations are shown. Base Flood Elevation is shown.

OTHER FLOOD AREAS

- ZONE X:** Flood elevations are shown. Base Flood Elevation is shown.

OTHER AREAS

- Zone A:** Areas determined to be subject to the 1% annual chance flood.
- Zone AE:** Areas determined to be subject to the 1% annual chance flood.
- Zone AH:** Areas determined to be subject to the 1% annual chance flood.
- Zone AR:** Areas determined to be subject to the 1% annual chance flood.
- Zone AW:** Areas determined to be subject to the 1% annual chance flood.
- Zone B:** Areas determined to be subject to the 1% annual chance flood.
- Zone C:** Areas determined to be subject to the 1% annual chance flood.
- Zone D:** Areas determined to be subject to the 1% annual chance flood.
- Zone E:** Areas determined to be subject to the 1% annual chance flood.
- Zone F:** Areas determined to be subject to the 1% annual chance flood.
- Zone G:** Areas determined to be subject to the 1% annual chance flood.
- Zone H:** Areas determined to be subject to the 1% annual chance flood.
- Zone I:** Areas determined to be subject to the 1% annual chance flood.
- Zone J:** Areas determined to be subject to the 1% annual chance flood.
- Zone K:** Areas determined to be subject to the 1% annual chance flood.
- Zone L:** Areas determined to be subject to the 1% annual chance flood.
- Zone M:** Areas determined to be subject to the 1% annual chance flood.
- Zone N:** Areas determined to be subject to the 1% annual chance flood.
- Zone O:** Areas determined to be subject to the 1% annual chance flood.
- Zone P:** Areas determined to be subject to the 1% annual chance flood.
- Zone Q:** Areas determined to be subject to the 1% annual chance flood.
- Zone R:** Areas determined to be subject to the 1% annual chance flood.
- Zone S:** Areas determined to be subject to the 1% annual chance flood.
- Zone T:** Areas determined to be subject to the 1% annual chance flood.
- Zone U:** Areas determined to be subject to the 1% annual chance flood.
- Zone V:** Areas determined to be subject to the 1% annual chance flood.
- Zone W:** Areas determined to be subject to the 1% annual chance flood.
- Zone Y:** Areas determined to be subject to the 1% annual chance flood.
- Zone Z:** Areas determined to be subject to the 1% annual chance flood.

BOUNDARIES AND OTHER FEATURES

- Prescott National Forest Boundary:** Indicated by a dashed line.
- Walnut Creek:** Indicated by a solid line.
- Willow Valley Road:** Indicated by a solid line.
- Other roads:** Indicated by solid lines.
- Contours:** Indicated by dashed lines.
- Spot heights:** Indicated by small circles with numbers.
- Water bodies:** Indicated by blue areas.
- Setbacks:** Indicated by small squares.
- Map Information Services:** Indicated by a small circle.
