Users should be aware that BFEs shown on the FIS report are not absolute elevations. These elevations are relative to the datum used in the FIS report and should be used as the base datum for flood elevation information accordingly. Flood elevation data generated in the FIS report should be utilized in conjunction with the FIS report for purposes of construction and/or floodplain management.

Base map information shown on this FIRM was derived from digital data provided by Yavapai County. Digital orthorectification was collected by the U.S. Department of Agriculture Farm Service Agency (2015) and by Digital Globe imagery (2014).
