

**NOTES TO USERS**

This map is for use in administering the National Flood Insurance Program. It does not constitute a warranty of accuracy or a promise, particularly with respect to flood damage, insurance or other risks. The user assumes all responsibility without limitation for losses or damages resulting from use of this map.

To obtain more detailed information in areas where **Base Flood Elevations** are shown, the user should refer to the Flood Insurance Study report that accompanies this FIRM. Users should be aware that the data shown on the FIRM represent the best available information. These data are subject to change as more accurate information becomes available. Flood elevation data presented in the FIRM report should be related to elevation with the FIRM for purposes of construction and floodplain management.

**Coastal Base Flood Elevations** shown on this map apply to the portion of the United States that is subject to coastal flooding. Users of this FIRM should be aware that coastal flood elevations are provided in the Survey of Base Flood Elevations in the Flood Insurance Study report for the jurisdiction. Elevations shown in the Survey of Base Flood Elevations shall be used for construction and floodplain management purposes when they are higher than the elevations shown on this FIRM.

Boundaries of the floodways were compiled at cross sections and interpolated between cross sections. The boundaries are based on hydrologic considerations and do not represent the boundaries of the National Flood Insurance Program. Floodways and other pertinent floodway data are provided in the Flood Insurance Study report for the jurisdiction.

Certain areas not in Special Flood Hazard Areas may be protected by flood control structures. Refer to Section 2 "Flood Protection Measures" of the Flood Insurance Study report for information on flood control structures for this jurisdiction.

The projection used in the preparation of this map was Universal Transverse Mercator, Zone 12. The datum used was the North American Datum of 1983. In areas where ground elevations are used in the production of FIRM, for adjacent jurisdictions, they may not be directly comparable to map, human services jurisdiction boundaries. These differences do not affect the accuracy of this FIRM.

Flood elevations on this map are referenced to the North American Vertical Datum of 1983. These flood elevations must be compared to elevation and ground elevations referenced to the same vertical datum. For information regarding conversion between the National Geodetic Survey datum of 1983 and other datums, refer to the National Geodetic Survey website at <http://www.ngs.noaa.gov> or contact the National Geodetic Survey at the following address:

NGS Information Services  
NCEM, NCEM2  
National Geodetic Survey  
1285 National Road  
Springer, Virginia 22161-4302  
(703) 755-3222

To obtain current elevation, description, and/or location information for **beams** shown on this map, please contact the Information Services Branch of the National Geodetic Survey at (803) 775-3242, or visit its website at <http://www.ngs.noaa.gov>.

**Base map information** shown on this FIRM was provided by Yavapai County. This data, produced in 2005, was provided in digital format at a scale of 1"=100'.

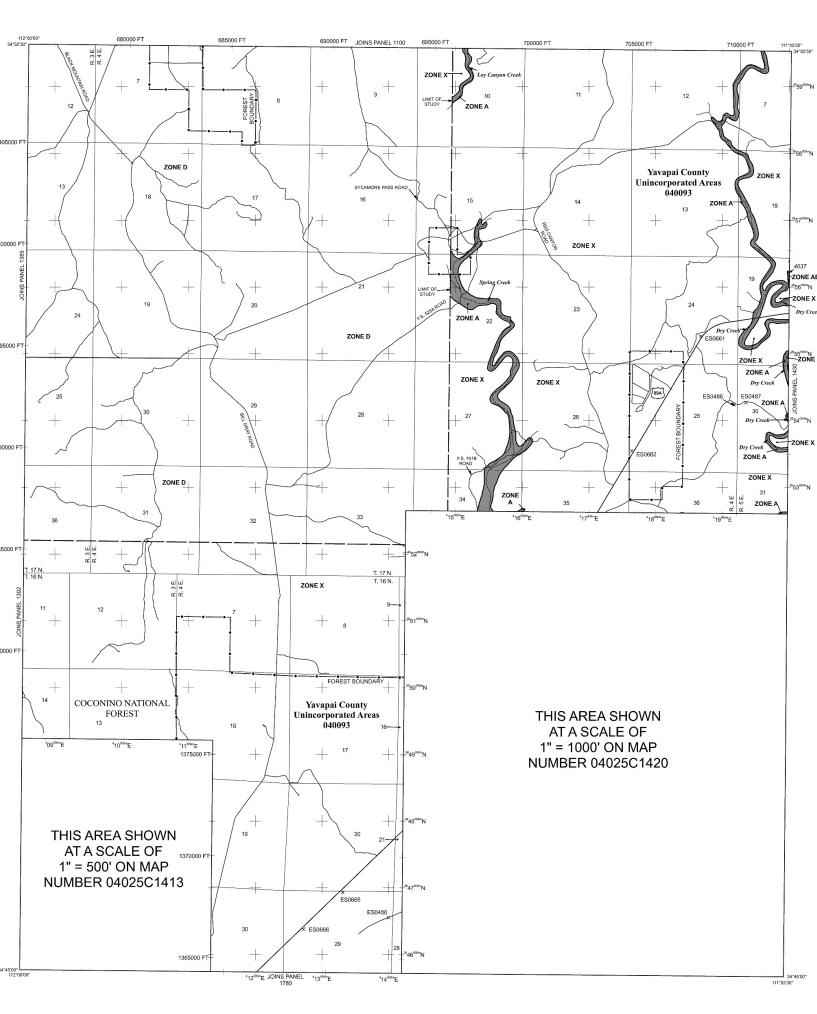

This map, which was created and printed, shows changed configurations from those shown on the previous FIRM for this jurisdiction. The Floodway and Floodway Boundary lines transferred from the previous FIRM may have been adjusted to reflect the current configuration of flood, sea level, National Geodetic Survey datum, and Floodway Data tables in the Flood Insurance Study report (which contains additional hydrologic data) may have changed slightly since that time from what is shown on this map.

Geographic details shown on this map are based on the best data available at the time of publication. Because changes due to annexations or de-annexations may have occurred since the map was published, users are urged to contact appropriate community officials to verify current corporate line locations.

Please refer to the explanatory notes that appear for each section of the map, showing the layout of map panels, community map regulatory jurisdiction, and a listing of contributing state agencies National Flood Insurance Program zones for each community as well as a listing of the panels on which each community is located.

Contact the **FIRM Map Service Center** at 1-800-358-6618 for information on available products associated with this FIRM. Available products may include preliminary report letters of Map Change, a Flood Insurance Study report, and/or digital versions of this map. The FIRM Map Service Center can also be reached by fax at (800)358-6618 or by e-mail at [firm@nffp.com](mailto:firm@nffp.com).

If you have questions about this map or questions concerning the National Flood Insurance Program in general, please call 1-877-FIRM-MAP (1-877-336-7267) or visit the FIRM website (<http://www.firm.gov>).
