

NOTES TO USERS

This map is for use in administering the National Flood Insurance Program. It does not constitute a guarantee of accuracy, nor does it constitute a warranty of any kind. The user assumes all responsibility for any use of the information contained herein for purposes not intended by the Federal Emergency Management Agency.

To obtain more detailed information in areas where Base Flood Elevations are shown, users should refer to the Flood Profile and Floodway Data Summary of Shaded Elevations (where relevant) and the Flood Insurance Study (FIS) report that accompanies this FEMA Flood Insurance Study. Users should be aware that FIS data shown on the FIS report represent the best available information at the time of publication. Flood elevation data presented in the FIS report should be related in conjunction with the FIS report for purposes of construction and/or floodplain management.

**Coastal Base Flood Elevations:** Users of this map should understand that Coastal Base Flood Elevations (CBFEs) are based on the National Oceanic and Atmospheric Administration's (NOAA) National Tidal and Current Survey (NTCS) data. CBFEs are based on the National Oceanic and Atmospheric Administration's (NOAA) National Tidal and Current Survey (NTCS) data. CBFEs are based on the National Oceanic and Atmospheric Administration's (NOAA) National Tidal and Current Survey (NTCS) data.

Boundaries of the Floodways were compiled at cross sections and interpolated between cross sections. The Floodways are based on hydrologic considerations and other pertinent Floodway data are provided in the Flood Insurance Study report for the jurisdiction.

Certain areas not in Special Flood Hazard Areas may be protected by Flood Control Structures. Refer to Section 2.3 "Flood Protection Measures" of the Flood Insurance Study report for information on flood control structures for this jurisdiction.

The projection used in the preparation of this map was Universal Transverse Mercator (UTM) Zone 12. The datum used was the North American Datum of 1983. All elevations are in feet above mean sea level. The datum used was the North American Datum of 1983. All elevations are in feet above mean sea level. The datum used was the North American Datum of 1983. All elevations are in feet above mean sea level.

Flood elevations on this map are referenced to the North American Vertical Datum of 1983. These flood elevations must be compared to elevations and ground elevations referenced to the same vertical datum. For information regarding conversion between the National Oceanic and Atmospheric Administration's (NOAA) National Tidal and Current Survey (NTCS) datum and the North American Vertical Datum of 1983, refer to the NTCS website at <http://www.ncei.noaa.gov/data/depthsoundings/> or contact the National Oceanic and Atmospheric Administration's (NOAA) National Tidal and Current Survey (NTCS) at (301) 761-2122.

For more information on this map, please contact the Information Services Branch of the National Oceanic and Atmospheric Administration's (NOAA) National Tidal and Current Survey (NTCS) at (301) 761-2122.

To obtain current elevation, description, and location information for beach markers shown on this map, please contact the Information Services Branch of the National Oceanic and Atmospheric Administration's (NOAA) National Tidal and Current Survey (NTCS) at (301) 761-2122.

Base map information shown on this map was provided by Yavapai County. This data, produced in 2005, was provided in digital format at a scale of 1:10,000.

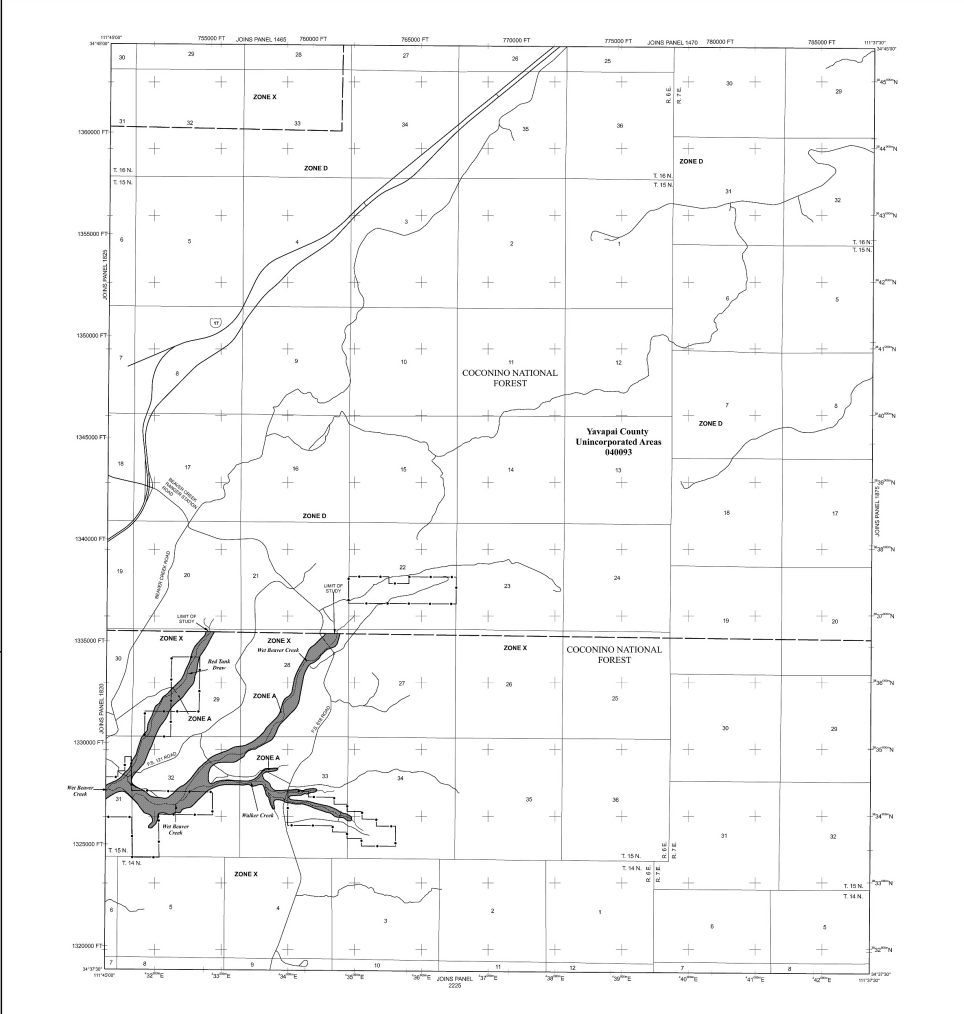

This map, which shows detailed and accurate elevation information, is based on the best available data for this jurisdiction. The Floodway and Floodway Data Summary of Shaded Elevations (where relevant) and the Flood Insurance Study (FIS) report that accompanies this FEMA Flood Insurance Study. Users should be aware that FIS data shown on the FIS report represent the best available information at the time of publication. Flood elevation data presented in the FIS report should be related in conjunction with the FIS report for purposes of construction and/or floodplain management.

Geographic details shown on this map are based on the best data available at the time of publication. Because changes due to construction or development may have occurred since the map was published, users should contact appropriate community officials to verify current conditions.

Please refer to the regulatory agency that issues an outline map of the county showing the layout of map panels covering map regulatory jurisdiction, and a listing of contributing data sources for the National Flood Insurance Program for each community as well as a listing of the panels on which each community is located.

Contact the FEMA Map Service Center at 1-800-358-6118 for information on available products associated with this FEMA Flood Insurance Study. Users should be aware that FIS data shown on the FIS report represent the best available information at the time of publication. Flood elevation data presented in the FIS report should be related in conjunction with the FIS report for purposes of construction and/or floodplain management.

If you have questions about this map or questions concerning the National Flood Insurance Program in general, please call 1-877-FEMA-MAP (1-877-369-3677) or visit the FEMA website ([www.fema.gov](http://www.fema.gov)).

**LEGEND**

**SPECIAL FLOOD HAZARD AREAS SUBJECT TO INUNDATION BY THE 1% ANNUAL CHANCE FLOOD**

- ZONE X** - Wetland Flood Hazard Area
- ZONE D** - Deep Water Flood Hazard Area
- ZONE A** - Coastal Flood Hazard Area
- ZONE V** - Very High Risk Flood Hazard Area
- ZONE B** - High Risk Flood Hazard Area
- ZONE C** - Moderate Risk Flood Hazard Area
