

NOTES TO USERS

This map is for use in determining the National Flood Insurance Program's flood or necessary down of areas subject to flooding, protection from flood damage, hazard or control. The information may be used for purposes of providing flood insurance or other flood hazard information.

To obtain more detailed information in areas where Flood Elevation Data is shown, contact the Flood Insurance Study (FIS) report for your jurisdiction. Flood Elevation Data is available from the National Flood Insurance Program (NFIP) website at www.flood.gov. Users should refer to the Flood Elevation Data report for more information. Flood Elevation Data is available from the National Flood Insurance Program (NFIP) website at www.flood.gov. Users should refer to the Flood Elevation Data report for more information.

General Note: Flood Elevation Data on this map is the result of the Flood Elevation Data report for your jurisdiction. Flood Elevation Data is available from the National Flood Insurance Program (NFIP) website at www.flood.gov. Users should refer to the Flood Elevation Data report for more information.

Vertical Datum: Flood Elevation Data on this map is based on the National Flood Insurance Program (NFIP) website at www.flood.gov. Users should refer to the Flood Elevation Data report for more information.

Horizontal Datum: Flood Elevation Data on this map is based on the National Flood Insurance Program (NFIP) website at www.flood.gov. Users should refer to the Flood Elevation Data report for more information.

Coordinate System: Flood Elevation Data on this map is based on the National Flood Insurance Program (NFIP) website at www.flood.gov. Users should refer to the Flood Elevation Data report for more information.

Map Accuracy: Flood Elevation Data on this map is based on the National Flood Insurance Program (NFIP) website at www.flood.gov. Users should refer to the Flood Elevation Data report for more information.

Map Date: Flood Elevation Data on this map is based on the National Flood Insurance Program (NFIP) website at www.flood.gov. Users should refer to the Flood Elevation Data report for more information.

Map Scale: Flood Elevation Data on this map is based on the National Flood Insurance Program (NFIP) website at www.flood.gov. Users should refer to the Flood Elevation Data report for more information.

Map Projection: Flood Elevation Data on this map is based on the National Flood Insurance Program (NFIP) website at www.flood.gov. Users should refer to the Flood Elevation Data report for more information.

Map Symbols: Flood Elevation Data on this map is based on the National Flood Insurance Program (NFIP) website at www.flood.gov. Users should refer to the Flood Elevation Data report for more information.

Map Legend: Flood Elevation Data on this map is based on the National Flood Insurance Program (NFIP) website at www.flood.gov. Users should refer to the Flood Elevation Data report for more information.

Map Contact: Flood Elevation Data on this map is based on the National Flood Insurance Program (NFIP) website at www.flood.gov. Users should refer to the Flood Elevation Data report for more information.

LEGEND

SPECIAL FLOOD HAZARD AREAS (SFHA) SUBJECT TO FLOODING BY THE 1% ANNUAL CHANCE FLOOD:

Zone AE: Areas of shallow water (1 to 3 feet) with a base flood depth of 1 to 3 feet (usually water of ponding). Base Flood Elevation (BFE) is shown.

Zone A: Areas of shallow water (1 to 3 feet) with a base flood depth of 1 to 3 feet (usually water of ponding). Base Flood Elevation (BFE) is shown.

Zone A0: Areas of shallow water (1 to 3 feet) with a base flood depth of 1 to 3 feet (usually water of ponding). Base Flood Elevation (BFE) is shown.

Zone A99: Areas of shallow water (1 to 3 feet) with a base flood depth of 1 to 3 feet (usually water of ponding). Base Flood Elevation (BFE) is shown.

Zone V: Coastal flood zone with velocity hazard (wave action). Base Flood Elevation (BFE) is shown.

Zone VE: Coastal flood zone with velocity hazard (wave action). Base Flood Elevation (BFE) is shown.

FLOODWAY AREAS IN ZONE AE: Areas of shallow water (1 to 3 feet) with a base flood depth of 1 to 3 feet (usually water of ponding). Base Flood Elevation (BFE) is shown.

OTHER FLOOD AREAS: Areas of shallow water (1 to 3 feet) with a base flood depth of 1 to 3 feet (usually water of ponding). Base Flood Elevation (BFE) is shown.

OTHER AREAS: Areas of shallow water (1 to 3 feet) with a base flood depth of 1 to 3 feet (usually water of ponding). Base Flood Elevation (BFE) is shown.

COASTAL BARRIER RESOURCES SYSTEM (CBRS) AREAS: Areas of shallow water (1 to 3 feet) with a base flood depth of 1 to 3 feet (usually water of ponding). Base Flood Elevation (BFE) is shown.

OTHERWISE PROTECTED AREAS (OPA): Areas of shallow water (1 to 3 feet) with a base flood depth of 1 to 3 feet (usually water of ponding). Base Flood Elevation (BFE) is shown.
