

NOTES TO USERS

This map is for use in administering the National Flood Insurance Program. It does not constitute a warranty of any kind, including any warranty of accuracy, completeness, or reliability. The user assumes all responsibility for any use of this map. The user agrees to hold the Federal Emergency Management Agency harmless for any use of this map.

To obtain more detailed information in areas where Base Flood Elevations (BFEs) are shown, users are encouraged to consult the Flood Profile and Floodway Data and/or Summary of Shaded Elevations data contained within the Flood Insurance Study (FIS) report that accompanies this FIS. Users should be aware that BFEs shown on the FIS report represent the best available data. These BFEs are subject to future information. Accordingly, flood elevation data presented in the FIS report should be utilized in conjunction with the FIS for purposes of construction and/or floodplain management.

Coastal Base Flood Elevations (CBEs) on this map represent the combination of 100 Year Average Recurrence Interval (ARI) Storm Surge and 100 Year ARI Storm Tide. Users of this FIS should be aware that CBEs are not shown in the Summary of Shaded Elevations data. These CBEs are subject to future information. Accordingly, flood elevation data presented in the FIS report should be utilized in conjunction with the FIS for purposes of construction and/or floodplain management purposes when they are higher than the elevations shown on this FIS.

Boundaries of the Floodways were compiled at cross sections and interpolated between cross sections. The boundaries were based on hydrologic considerations with regard to the characteristics of the National Flood Insurance Program. Floodway widths and other pertinent Floodway data are provided in the Flood Insurance Study report for the jurisdiction.

Certain areas not in Special Flood Hazard Areas may be protected by flood control structures. Refer to Section 2.3 "Flood Protection Measures" of the Flood Insurance Study report for information on flood control structures for this jurisdiction.

The projection used in the preparation of this map was Universal Transverse Mercator, Zone 12. The datum used was the North American Vertical Datum of 1988. All elevations are in feet above mean sea level. The datum used in the production of this map is the datum used in the Flood Insurance Study report for the jurisdiction. These elevations do not affect the accuracy of this FIS.

Flood elevations on this map are referenced to the North American Vertical Datum of 1988. These flood elevations must be converted to elevation referenced to the same vertical datum. For information regarding conversion, consult the National Flood Insurance Study of 1988 for the jurisdiction. For more information, contact the National Geographic Survey at <http://www.ngs.noaa.gov> or contact the National Geographic Survey at the following address:

To obtain current elevation, description, and/or location information for benchmarks shown on this map, please contact the Information Services Branch of the National Geographic Survey at (301) 751-3282, or visit its website at <http://www.ngs.noaa.gov>.

Base map information shown on this FIS was provided by Yavapai County. This map, produced in 2005, was provided in digital format at a scale of 1:10,000.

This map, which was created and printed using digital cartographic techniques from those shown on the previous FIS for this jurisdiction. The Floodway and Floodway Data were derived from the previous FIS. The Flood Profile and Floodway Data were derived from the previous FIS. The Flood Profile and Floodway Data were derived from the previous FIS. The Flood Profile and Floodway Data were derived from the previous FIS.

Geographic details shown on this map are based on the best data available at the time of publication. Because changes due to amendments or de-amendments may have occurred since the map was published, users should contact appropriate community officials to verify current geographic locations.

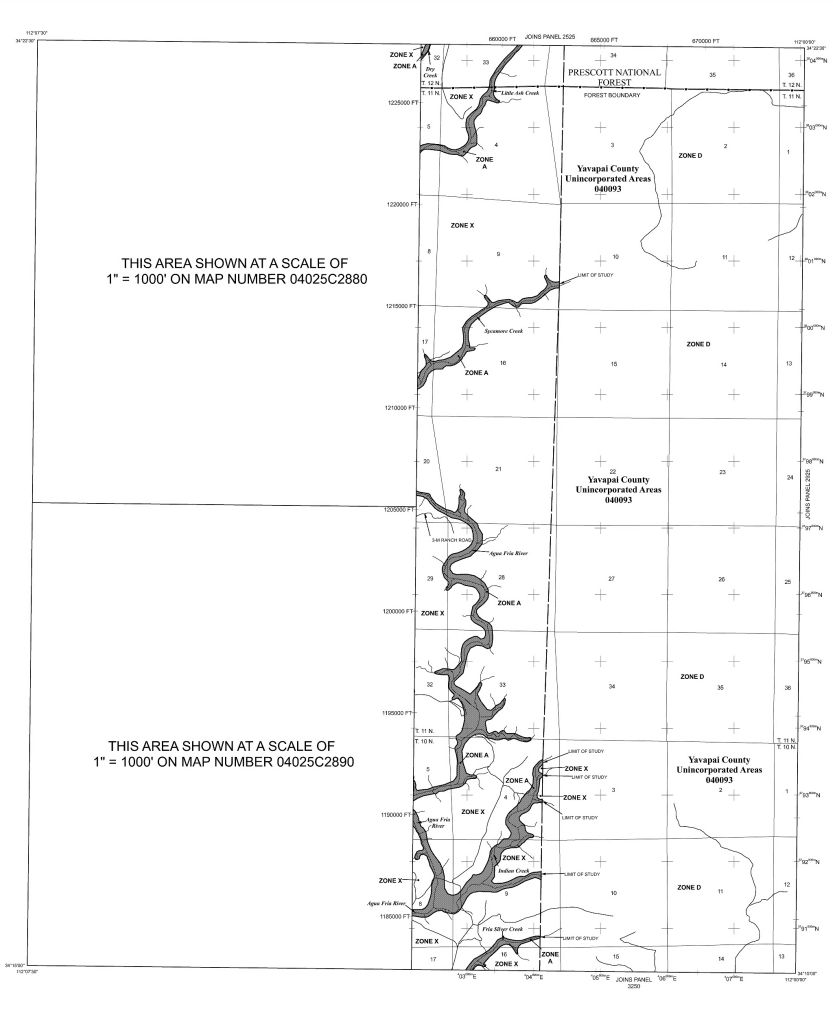

Please refer to the explanatory material Map Users for an overview map of the county showing the layout of map panels, community map resolution, additional, and a listing of communities with corresponding National Flood Insurance Program zones for each community as well as a listing of the panels on which each community is located.

Contact the FEMA Map Service Center at 1-800-358-6181 for information on available products associated with this FIS. Available products may include preliminary report letters of Map Change, a Flood Insurance Study report, and/or digital versions of this map. The FEMA Map Service Center can also be reached by fax at 1-800-358-6181 or by e-mail at fema@fema.dhs.gov.

If you have questions about this map or questions concerning the National Flood Insurance Program in general, please call 1-877-FEMA-MAP (1-877-368-2627) or visit the FEMA website at www.fema.gov.
