

NOTES TO USERS

This map is for use in administering the National Flood Insurance Program. It does not constitute a warranty of any kind, including liability for flood damage, insurance or other loss. The community is responsible for its own flood insurance. For more information on flood insurance, contact your insurance agent or the National Flood Insurance Program.

To obtain more detailed information in areas where Base Flood Elevations (BFEs) are shown, please refer to the Flood Profile and Floodway Data and/or Survey of Shaded Elevations (SSE) data sheets which are the Flood Insurance Study (FIS) report that accompanies this FIS. Users should be aware that BFEs shown on the FIS represent the highest water level that can be expected in the community. Flood insurance should be obtained in accordance with the FIS for purposes of construction and/or floodplain management.

Coastal Base Flood Elevations shown on this map are the result of an analysis of 100 Year Average Vertical Datum of 1988 (AVD-88) data of the FIS. Users should be aware that coastal flood elevations are also provided in the Survey of Shaded Elevations data in the Flood Insurance Study report for the jurisdiction. Elevations shown in the Survey of Shaded Elevations data should be used for construction and/or floodplain management purposes when they are higher than the elevations shown on this FIS.

Boundaries of the floodways were compiled at cross sections and interpolated between cross sections. The floodways are based on hydraulic considerations with regard to information of the National Flood Insurance Program. Floodway width and other pertinent floodway data are provided in the Flood Insurance Study report for the jurisdiction.

Certain areas not in Special Flood Hazard Areas may be protected by flood control structures. Refer to Section 2.1 "Flood Protection Measures" of the Flood Insurance Study report for information on flood control structures for this jurisdiction.

The projection used in the preparation of this map was the Universal Transverse Mercator (UTM) Zone 12. The datum used was the North American Datum of 1983. In areas where ground elevations are shown, the datum used in the production of the FIS for adjacent jurisdictions may vary. In such cases, differences in map datum may cause slight variations in elevation. These differences do not affect the accuracy of the FIS.

Flood elevations on this map are referenced to the North American Vertical Datum of 1988. These flood elevations must be converted to structure and ground elevations referenced to the same vertical datum. For information regarding conversion between the National Flood Insurance Study datum of 1988 and other vertical datums of 1988, see the National Geographic Survey website at <http://www.ngs.noaa.gov> or contact the National Geographic Survey at the following address:

National Geographic Survey
 National Geographic Society
 1215 25th Street, NW
 Washington, DC 20037
 (202) 837-1000

To obtain current elevation, description, and/or location information for levees shown on this map, please contact the Information Services Branch of the National Geographic Survey at (801) 775-2824, or visit its website at <http://www.ngs.noaa.gov>.

Base map information shown on this FIS was provided by Yavapai County. This data, produced in 2003, was provided in digital format at a scale of 1:10,000.

This map, which was prepared and printed, shows changed configurations from those shown on the previous FIS for this jurisdiction. The Floodway and Floodway Data were transferred from the previous FIS. The Flood Profile and Floodway Data were transferred from the previous FIS. The Flood Profile and Floodway Data were transferred from the previous FIS. The Flood Profile and Floodway Data were transferred from the previous FIS.

Geographic details shown on this map are based on the best data available at the time of publication. Because changes due to construction or de-construction may have occurred since the time this map was published, users should contact appropriate community officials to verify current property line locations.

Please refer to the regulatory agency map books for an outline map of the county showing the layout of map panels, community map regulatory addresses, and a listing of communities with corresponding National Flood Insurance Program panels for each community as well as a listing of the panels on which each community is located.

Contact the FEMA Map Service Center at 1-800-358-6118 for information on available products associated with this FIS. Available products may include printed report of the FIS, a Flood Insurance Study report, and/or digital versions of the FIS. The FEMA Map Service Center can be reached by fax at (800) 358-6118 or by e-mail at fema@fema.gov.

If you have questions about this map or questions concerning the National Flood Insurance Program in general, please call 1-877-FEMA-MAP (1-877-368-2677) or visit our website at www.fema.gov.

LEGEND

SPECIAL FLOOD HAZARD AREAS SUBJECT TO INSURANCE BY THE 2% ANNUAL CHANCE FLOOD

ZONE A
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

ZONE X
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

ZONE K
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

ZONE B
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

ZONE C
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

ZONE D
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

ZONE E
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

ZONE F
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

ZONE G
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

ZONE H
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

ZONE I
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

ZONE J
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

ZONE L
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

ZONE M
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

ZONE N
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

ZONE O
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

ZONE P
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

ZONE Q
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

ZONE R
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

ZONE S
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

ZONE T
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

ZONE U
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

ZONE V
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

ZONE W
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

ZONE Y
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

ZONE Z
 Special Flood Hazard Area
 Flood depths of 1 to 3 feet (shaded area of water); base Flood Elevation determined.

OTHER FLOOD AREAS

ZONE 1
 Areas determined to be subject to the 1% annual chance flood.

ZONE 2
 Areas determined to be subject to the 0.2% annual chance flood.

COASTAL BARRIER RESOURCES SYSTEMS (CBRS) AREAS

OTHER PROTECTED AREAS (OPA)

OPAs include:
 - Floodway boundaries
 - Zone boundaries
 - Other flood hazard boundaries
 - Floodway boundaries
 - Zone boundaries
 - Other flood hazard boundaries
